The Whigs of the United States, in Convention assembled, firmly adhering to the great conserva-tive republican principles by which they are con-trolled and governed, and now, as ever, relying upon the intelligence of the American people, with an abiding confidence in their capacity for self-government and their continued devotion to the constitution and the Union, do proclaim the following as the political sentiments and determina for the establishment and maintenance of which their national organization as a party is

effected: 1. The government of the United States is of a limited character, and it is confined to the exercise of powers expressly granted by the constitution, and such as may be necessary and proper for carrying the granted powers into full execution; and that all powers not thus granted or necessarily implied are expressly reserved to the

States, respectively, and to the people.

2. The State governments should be held secure in their reserved rights, and the general government, sustained in its constitutional powers, and the Union should be revered and watched

over as "the palladium of our liberties."

8. That, while struggling freedom everywhere enlists the warmest sympathy of the Whig party, we still athere to the doctrines of the Father of his Country, as announced in his Farewell Address, of keeping ourselves free from all entangling alliances with foreign countries, and of never quitting our own to stand upon foreign That our mission as a republic is not to propagate our opinions, or impose on other coun ries our form of government by artifice or force, but to teach by example, and show, by our success, moderation, and justice, the blessings of self-government and the advantages of free in

4. That where the people make and control the government, they should obey its constitution, laws, and treaties, as they would retain their self-respect and the respect which they claim and

will enforce from foreign powers.

5. Government should be conducted upon principles of the strictest economy, and revenue sufficient for the expenses thereof, in time of peace, ought to be mainly derived from a duty on imports, and not from direct taxes; and in levying meh duties, sound policy requires a just discrimi nation, and protection from fraud by specific du ties when practicable, whereby suitable encour-agement may be assured to American industry, equally to all classes and to all portions of the

6. The constitution vests in Congress the power to open and repair harbors, and remove obstruc-tions from navigable rivers; and it is expedient that Congress should exercise that power, whenever such improvements are necessary for the common defence, or for the protection and facility of commerce with foreign nations or among the States; such improvements being, in every in-stance, national and general in their character.

7. The federal and State governments are parts of one system, alike necessary for the common prosperity, peace, and security, and ought to be regarded alike with a cordial, habitual, and immovable attachment. Respect for the authority of each, and acquiescence in the constitutional measures of each, are duties required by the plainest considerations of national, of State, and of individual welfare.

S. The series of acts of the 31st Congress com-

monly known as the Compromise or Adjustment (the act for the recovery of fugitives from labor included) are received and acquiesced in by the Whigs of the United States as a final settlement, principle and substance, of the subjects to which they relate; and, so far as these acts are concerned, we will maintain them, and insist on their strict enforcement, until time and experience shall demonstrate the necessity of furher legislation, to guard against the evasion of the laws on the one hand, and the abuse of their powers on the other-not impairing their present efficiency to carry out the requirements of the constitution; and we deprecate all further agitation of the questions thus settled, as dangerous to our peace, and will discountenance all efforts to continue or renew such agitation, whenever, and we will mainwherever, or however made; tain this settlement as essential to the nationality of the Whig party and the integrity of the Union. Mexican Mustang Liniment!

READ the following proof of what we have long since asserted, viz: that the Mustang Limment is the since qua non of all external remedies ever before offered to the afflicted:

"Wm. M. Johnston, No. 112 Second street, Pittab "Wm. M. Johnston, No. 112 Second street, Pittsburg, says that he had a severe attack of Kheumatism in his right hip; after suffering some ten days, the left hip also became affected, and he was obliged to 'lay up.' The pain was constant and excruciating. He had heard of the wonderful effects of the Mustang Litoiment in Rheumatism, and determined to try it. One small bottle, thoroughly applied, performed a perfect cure! B. H. Meakings, 180 Wainut street, Cincinnath, was confined to his bed and under treatment of a physician some six weeks with Neuralgia of the whole of his right side, leg, arm, and face. His sufferings were indescribable, and theonly cessation from the most agonizing pain was while under the indusence of optum or morphine. His doctor finally advised him to try the Mustang Liniment; he did so, and in two days was able to go about his business, perfectly cursed."

"THE LAME MADE TO WALK.—About the first of April I

did so, and in two days was able to go about his business, perfectly cured."

"THE LAME MADE TO WALK.—About the first of April I cut and laid open the fore finger of my left hand, through the bone and across the second joint, nearly dissevering it from the hand, being about two-thirds off. I was fearful that I should lose the use of my finger forever: but I bound it up with the Mexican Mustang Liniment, and it somewhat scarrified. I used nothing but the Mustang Liniment.

"About one week ago I had the misfortune to cut the cap of my left knee in two with the sharp corner of an axe. The cap was split assunder, and for a day or two I could not use my leg at all, and I was afraid that I would lose its use forever. The cap was cut and cleft to the joint with a deep and alsurning gish, and it gave me great pain and uneasiness, lest I should be entirely deprived of the use of my leg. I applied the Mexican Mustang Liniment, and that alone, in both of the above cases, and I am now quite well, except the cap of my knee is a little swollen, and is tender about the cut, which is healed up and shows a fresh red appearance of about one inch and a half in length and a quarter of an inch in width, but gives me or inconvenience whatever.

"I walked fifteen miles yesterday out of the thirty miles from the place where I live mear the Sulphur Springs, in Jefferson county, and feel able to walk as many more today. My recovery has been so wonderful that I feel it my duty to make it public, that the world may know the value of the Maxican Mustang Liniment.

WHITEHURST'S GALLERY OF PREMIUM DA- MACHINE FOR CRUSHING, GRINDING, AND

Recently Patented in this Country and Europe.

COCHRAN'S Planospherical Quartz Cassinia and Pulversinia Macanius are now in daily operation for the inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their durability, the undoubted principles upon which they operate, their effective operation and result, are justly entitled to the consideration of all parties engaged in grinding, crushing, and Pulverising Quarts, Iron Ore, Zinc, Copper, and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the economy of these machines that they are found capable of crushing and pulverising into the finest powder any amount of Quartz or other earthy matter, in proportion to the amount of weight or power applied. The earthy matter is so completely ground and pulverized, that the Gold may be easily separated, and subjected to any process of amalgamation that may be necessary.

The average week and deliver wet or dry, as may be re-

cessary.

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being pulverized. They are at once applicable for all purposes or rinding and pulverizing, from those required by the Druggist to those of the most extensive operations in California and Australia.

gist to those of the most extra and Australia.

These machines are from two to twelve feet in diameter, with balls or spheres from three inches to five feet in diameter, each machine weighing from 250 pounds to 20 tons each, and are sold, with the right to use them, at from \$100 and the second of the second o each, and are sold, with the vigorial solds and are sold, with the sold each.

They can be worked by steam, water, horse or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls, any desired amount of power may be used, from that of solds.

man or horse upward.

The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of these machines over any other, for crushing, grinding, or pulverizing, heretofore affered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Paient Block and Saw Factory of Messes. Hurr, Waterman & Co., first street south of Peck Silp Ferry seery day, from 7 to 9 a. m., and from 4 to 6 p. m. For further particulars, apply to 22 Cliff street, New York.

Mechanics, Manufacturers, and Inventors.

Mechanics, Manufacturers, and Inventors.

THE Eighth Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the genius and master-spirit of the unition.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The publishers pledge themselves that the future volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly brought forward and discussed in its columns, are Civil Engineering, Architecture, Railroads, Bridges, Arricultural Implements, Manufactures of Metals, Fibrous and Textile Substances, Machinery for the purpose, Chemical processes, Distilling, Coloring, &c., Steam and Gas Engines, Boilers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Water Wheels, Wind and Grinding Mills Powers, Planing Machines, Tools for Lumber, Brick Machiner. Farming, Fire Arms, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all Patents, Reviews, Notices of New Inventions, American and Foreign. The work is in form for binding, contains several hundred Engfavings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columns, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference.

Valuable Premiums are offered for the largest list of Subscribers to this Volume. It is published weekly by MUNN & CO., at their Patent Agency Office, 123 Fulton street, New York.

MAYOR'S PROCLAMATION.

WHEREAS by the act entitled "An act relating to Dogs," approved 25th July, 1829, and the act amending the same, approved 25th April, 1838, it is provided that "whenever it shall be made appear to the satisfaction of the Mayor that any animal of the dog kind" within the city shall be "deemed and considered mad," "it shall be the duty of the Mayor to issue his proclamation requiring that all animals of the dog kind shall be kept confined for such number of days as he shall deem expedient and proper to state in said proclamation, not exceeding ninety days; and it shall be the duty of the city constables, and lawful for any other person, to kill and bury all and every doy going at large contrary to the said proclamation," &c.:

Now, therefore, it having been made to appear to my satisfaction that there are "animals of the dog kind" in this city, I do hereby give notice to all whom it may concern that "all animals of the dog kind" in this city are required to be kept confined for and during the term of thirty days from the date hereof; and the police officers of this Corporation are required to enforce the law in respect to all such as may be found going at large contrary to this proclamation.

Given under my hand at the Mayor's office, in the city of

proclamation.

Given under my hand at the Mayor's office, in the city of Washington, this seventeenth day of August, 1852.

aug 18—d2&law3w JOHN W. MAURY, Mayor. MR. J. K. GOODALL,

Professor and Teacher of Dancing, Deportment, Ca-listhenic, Sceptre, and the more athletic Indian club exercise for gentlemen, from London, club exercise for gentlemen, from London,

As the honor to inform the families of this neighborhood that, at the request of many Ladies and Gentlemen, he will take up his residence in Washington for the purpose of teaching the above indispensable branch of a genteel education, and, having studied under Mr. Masox and Mr. Tennitt, of London, sise a practice of sixteen years, and testimonials from the first families, and parents and guardians of youth, enable him to impart all the fashionable, elegant Dances in a style that will not only do him credit, but give general satisfaction to his patrons.

Mr. Geodall is making arrangements for an elegant suit of rooms, and due notice will be given to his pupils: he respectfully solicits an early call to enable him to fully carry out his plans relative to his classes.

Mr. G: will also devote all his spare time to gentlemen wishing to study and practise the Violin and Violoncello.

Mr. G. will also devote all his spare time to gentlemen wishing to study and practise the Violin and Violoncello, and who wish to continue them with the sid of a master; and, as a guaranty of his ability, he need only mention that he was Musical Director and Leader of the National Theatre Orchestral Band, and he respectfully invites all to inspect his testimonials from families and schools he has taught during a long period in England.

Mr. G. will also give lessons in Singing, and intends to form Vocal and Instrumental Classes, and in the interim will be happy to give private lessons in any of the above branches.

At HAMPTON'S VEGETABLE TINCTURE always on june 19—tr

"COME, LET US REASON TOGETHER." ORAL TESTIMONY.

ORAL TESTIMONY.

THOUSANDS feel it a duty to talk to their afflicted friends of the benefit derived from HAMPTON'S VEGETABLE TINCTURE. From day to day we have given the certificates of cures performed on our best-known citizens, and still we have a perfect avaianche of letters pouring in upon us—all, all giving a weight of testimony that must convince the most skeptical. All are invited to call and read for themselves. The letter below is from one of the first mercantile firms. To those who know them, it must carry conviction, and induce many sufferers to give this Tincture a trial:

PORT ROYAL, Va., July 27, 1852.

Port Royal, Va., July 27, 1852.

Messrs. Mortimer & Mowbray: Gents: We have again to send an order for more of your truly wonderful Hampton's Vegetable Tincture. Since it was first tried it has sold without an effort, and we have not seen the first person who has not been greatly benefited by its use. A gentleman of our neighborhood was induced to try the "Tincture" for a violent palpitation of the heart. He had suffered so much from it that he said he had prayed for death. He had taken but three doses when he assured us he would not take five hundred dollars for the benefit he had derived, and that he should never cease to remember us with gratitude for calling his attention to so valuable a medicine. Yours, truly,

GRAY & PENDLETON.

The Whole World, Attention!-Hear him, ye sick, and do likewise!!

Baltimore, Feb. 9, 1862.

Messrz, Mortimer & Monobray: Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Sometime during last November I was taken with a very bad and serious cough. I was advised to take Cod-Liver Oil, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all my cough left me. Permit me also to state that, for the last fifteen years, I have suffered very much from Acute Rheumatism and Vertigo, confining me at times to my bed. I am fully convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at liberty-to use this as you may think propers and believe me, yours, very respectfully.

G. DUNAN. BALTIMORE, Feb. 9, 1852.

THE ALMOST MIRACULOUS CURES made by Hampton's Vegetable Tincture on our most respectable citizens—men well known and tried—we challenge the work to show anything on record in medicine to equal it. Many hundreds who have felt its healing powers bear the same tests

Messrs. Mortimer & Monebray: Gents: Last September I mes attacked with erysipelas, from which a dreadful ulcer formed on my right leg. Getting better of this, last November I took a deep cold, which led to what my physician told me was billous pleurisy, which left me with a constant, deeply-seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINC-TURE, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I felt much improved; and now, having taken but two bottes, my cough and pains have entirely left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine. Yours,

Schroeder, near Saratoca street.

Truth stranger than Fiction! — None need despair! -A Lady's Testimony after thirty-eight years of suffering!

Were there not real virtue in this wonderful and it perform the astonishing cures made by it could it perform the astonishing cures made by \$1?

Northampton Co., April 13, 1852.

Messrs. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfth year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helpless; I have tried various remedles to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not move any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any relief; I was a last advised to try HAMPTON'S VEGETABLE TINCTURE last advised to try Individual Carl Able Inclined before I had taken one bottle of which I felt much better and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, believing

Yours, ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N. PORTEMOUTH, (Va.,) Aug. 18, 1551.

Mr. J. E. Boush—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in Dyspepsia, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours,

VERNON ESKRIDGE,

Chaplain in the U. S. Navy.

HAMPTON'S VEGETABLE TINCTURE, by its mild action on the Stomach, Liver, and the Kidneys, will cure Dyspepsia, Cough, Asthma, Bronchial and Lung Affections: Pains in the Back, Side, and Breast; Consumption, Scrofula, Rheumatism, Gout, Neuraigia, Piatula, Piles, Bovel Complaints, Worms, Nervous Debility—with all diseases arising from impure blood, and is the greatest Female Medicine ever known.

sep 3— A. GREEN, THOS. A. SCOTT. Protection from Lightning.

The undersigned, being the duly appointed Agent of Sprays's Electrical and Electro-Metallussis Lightning.

The undersigned, being the duly appointed Agent of Sprays's Electromator and Electro-Metallussis Lightning. An electro-Real Electro-Positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately stated brass-screw connecting joints, an entire new style of inetallic (patentiel) attachments, for brick or frame buildle ga; also, glass isolaters, of a novel and ingenious construction, (patented.) forming a lock; the whole mounted with a solid platinum silver point, (patented.) travelve kiches long, surrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fearful thunderstorm, and embrace the entire perfections of science up to the present time; the whole constituting the most magnificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but slight results, though placed under the same conditions. In fact, they gather and silently discharge electricity from the atmosphere when you would scarcely suspect any being present.

These improvements being secured by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All agents duly appointed can show thair certificates. Have good rods or none.

CHARLES W. HEYDON,
Washington City. Protection from Lightning.

I do hereby certify that I have app lied various powerful

chemical re-agents to Spratt's Patent Points for Lightning-Rods, and that the results of these experiments convince me that they will resist the action of atmospheric causes, and thereby preserve the extremity sharp—a condition most es-sential to protection sgainst lightning. The re-agents used in the above experiments were a solution of chloride of so-dians (excress set) agents exit suphymic acid and hydrodium, (common sait,) acetic acid, sulphuric acid, and hydrochloric acid. With the first, there was no action on the metal; with the several acids, there was very slight—a fact sufficient to show that atmospheric influences would have no sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Chem.
University of GA., October 8, 1850.

The Lightning Conductors of Mr. Spratt, effered to me, re well calculated to perform the office for which they are metaded. Yours, truly, Prof. ROBT. PETER. LEXINGTON, KY., February 20, 1850. LEXINGTON, KY., February 20, 1850.

OHICAGO, September 3, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, cheapness, and efficacy, I deem it equal, and I thjuk superior, to any other rod ever offered for my inspection.

Prof. JAS. V. Z. BLANEY.

for my inspection.

AUGUSTA, (GA.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising from the result of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

A. MEANS. test, to result for years the action of those atmospheric causes most likely to corrode them.

Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, are the best 1 have aver seen.

very well devised; and, in point of mechanical construction, are the best I have over seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

R. SILLMAN, Jr.,

Prof. of Chem. in the University of Louisville.

Leuisville, January 27, 1851.
